## PROFILE

UI/UX designer with a background in interior design. Experienced in creative problem solving, research, designing and managing projects for clients. Passionate about creating beautiful and efficient solutions. Highly motivated by a constant need to learn and express creativity. Skilled in user interface design, prototyping, user research and frontend development.

## WORK EXPERIENCE

### JUNIOR DESIGNER

A LA MER, INC. | August 2020 - May 2021

- Facilitated client meetings to conduct design research, initiate ideas, develop concepts that were then translated into visual mock-ups.
- Empowered client design decisions through product visualization by creating high fidelity prototypes using Photoshop and LightRoom for a portfolio of 80+ projects, representing a \$40M portfolio.

### ASSOCIATE I, DESIGN

ROYAL CARIBBEAN GROUP | May 2019 - May 2020

- Managed carpet and drapery design for a 6,000+ passenger vessel, the largest initiative in company history.
- Produced visual presentations with user metrics and design solutions for senior-level management design approval.
- Worked with Product Development to create products and experiences that aligned with brand standards and user analytics, which resulted in the introduction of 20 new onboard venues.

### DESIGN ASSISTANT

FISTER DESIGN, INC. | April 2012 - January 2013

- Collaborated directly with the principal designer to meet with clients and create design concepts by understanding user input and creating visual mock-ups.
- Managed a diverse \$5M portfolio of clients by creating all visual presentations, 3D prototypes, and story boards up to the project's final hand off.

## SELECT PROJECTS

### BUDGETLY

Conducted research to develop a money saving app that allows users to track financial data and budget goals.

### PEEPS

Analyzed existing products and created user personas to develop a location based mobile app that connects users to events and people in their area with similar interests.

### ON THE ROCKS

Developed a responsive app for a subscription service that provides users with a diverse database of recipes for craft cocktails.
