### PROFILE

UI/UX designer with a background in interior design. Experienced in creative problem solving, research, designing and managing projects for clients. Passionate about creating beautiful and efficient solutions. Highly motivated by a constant need to learn and express creativity. Skilled in user interface design, prototyping, user research and frontend development.

### WORK EXPERIENCE

#### JUNIOR DESIGNER

A LA MER, INC. | Aug 2020 - May 2021

- Facilitated client meetings to conduct design research, initiate ideas, develop concepts, and translate them into visual mock-ups.
- Empowered client design decisions through product visualization by creating high fidelity prototypes using Photoshop and LightRoom for a portfolio of 80+ projects representing a multi million dollar portfolio
- Worked in a collaborative environment with a solutions-oriented approach to produce end-to-end designs that

#### ASSOCIATE I, DESIGN

ROYAL CARIBBEAN GROUP | May 2019 - May 2020

- Managed carpet and drapery design for a 6,000 passenger.
- Produced visual presentations with user metrics and design solutions to be shown to upper level management.
- Worked with Product Development to create experiences with brand elements and user metrics in mind.
- Represented the brand as a liaison between the shipyard and outsourced architectural firms to ensure all design decisions aligned with brand standards.

#### DESIGN ASSISTANT

FISTER DESIGN, INC. | Apr 2012 - Jan 2013

- Collaborated directly with the principal designer to meet with clients and create design concepts by understanding user input and creating visual mock-ups.
- Created all visual presentations, 3D prototypes, and story boards for projects.
- Executed all design phases from conceptualization to final hand off.

### SELECT PROJECTS

#### BUDGETLY

Conducted research to develop a money saving app that allows users to track financial data and budget goals.

#### PEEPS

Analyzed existing products and created user personas to develop a location based mobile app that connects users to events and people in their area with similar interests.

#### ON THE ROCKS

Developed a responsive app for a subscription service that provides users with a diverse database of recipes for craft cocktails.
